GUI Sketch:

RED = GLOBAL SCORE
Black = USER RESULTS
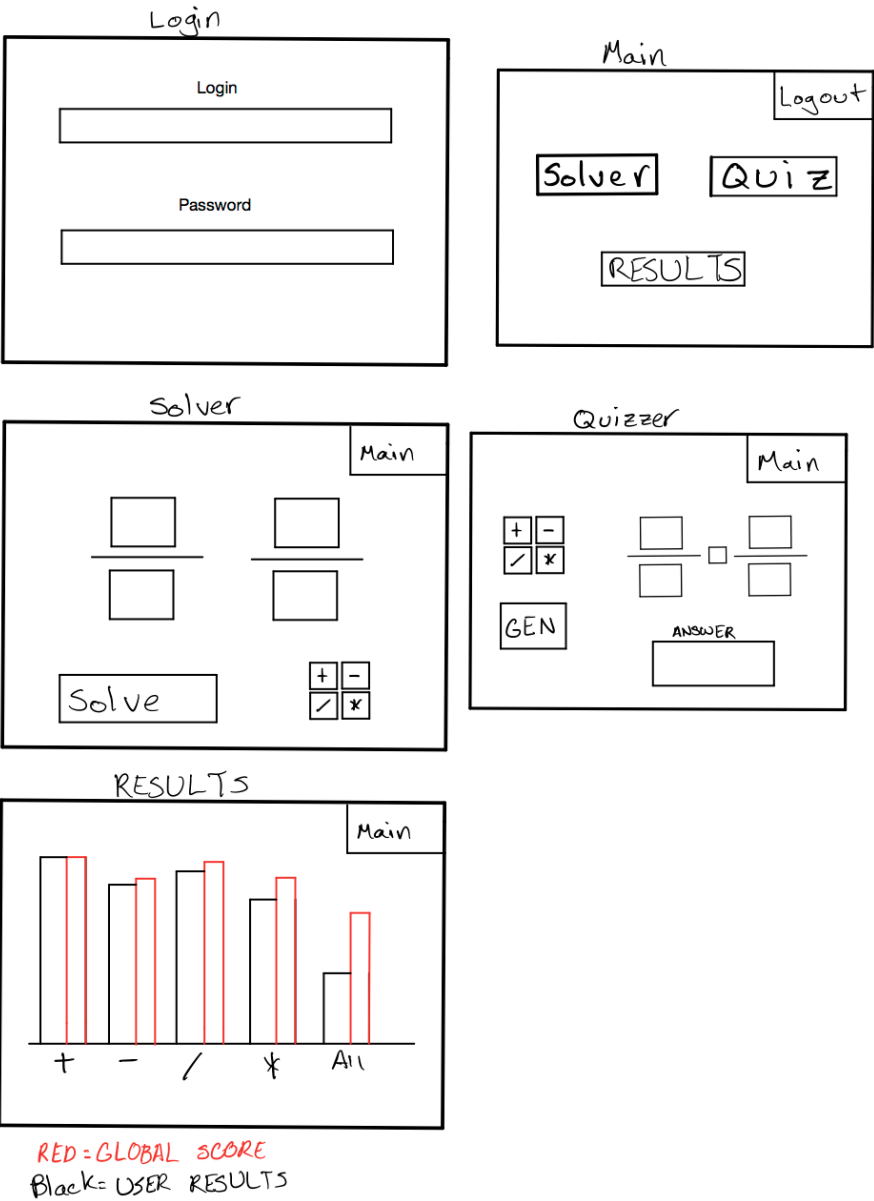

Responsibilities:

Ryan - Creating the Quizzer GUI and functionality
Zack - Creating the Login GUI and doing authentication of users
Sterling - Creation of Solver GUI, Results Viewer GUI and functionality
Ben - SQLite database creation, Results Viewer GUI and functionality.

Modules:

import re
import math
import sqlite3
import random
import fraction
import sys
import tkinter
import bcrypt
import matplotlib

Activity to date:

The team has met up to discuss the project specifications. We decided the Fractions Helper App was a good fit for our group. Ryan researched Tkinter and has been using it in other projects to gain a better understanding of its functionality. Ben has been researching SQLite and created a test database. The group met to create a sketch of the GUI windows for the project.
